FACIAL TREATMENTS

At Skye Medical Aesthetics Center, we pride ourselves in the quality of our Medical Grade Facials.

A Medical Grade Facial is a skin treatment that offers longer results, as the nature of products used penetrates below the epidermis or the top layer of skin, to encourage healthy skin that can regenerate naturally.

A regular facial is mostly used to relax and cleanse the skin, whereas a Medical Grade Facial is used to manage and treat certain skin imperfections and conditions. Medical Grade Facials are customized treatments and may involve the use of prescription-strength serums, creams and other topicals.

At Skye Medical Aesthetics Center we provide industry-leading and revolutionary Medical Grade Facial treatments, using the industries best products and the latest technology; Skye Medical Aesthetics Center will exceed your expectations.

Once our team determines which service is right for you, the treatment is completely personalized to fit your unique needs and ensure the best possible results.

FACIAL TREATMENTS

Dermaplaning Facial

\$33

Exfoliate your skin with our Dermaplaning facial.

This unique treatment removes dead skin cells, resulting in healthier, brighter skin, using a 'surgical scalpel', one of our highly trained Aestheticians will gently shave the face, removing the topmost layer of dead skin cells along with vellus hair (peach fuzz).

There are many benefits that come along with Dermaplaning, these include:

- Removes dirt and oil accumulation
- Helps minimize superficial acne scarring
- Diminish the look of fine lines.

This treatment can be used on all skin types.

Dermaplaning is a quick procedure which leaves you looking and feeling refreshed and renewed. You will also notice a difference in makeup application as products penetrate the skin deeper. We do recommend using an SPF after this treatment as your face will be highly susceptible to the Sun after each treatment. This treatment is inclusive of LED light therapy.

Skin type indications: blocked pores, rough texture, dull and sallow skin. (50 mins)

Hydra-Dermabrasion

\$35

Hydra-Dermabrasion exfoliates dead skin cells and extracts impurities with a vacuum-based skin abrasion tip while simultaneously bathing the healthy underlying skin with active serums that cleanse deeply, exfoliate thoroughly, hydrate completely and provide residual antioxidant protection.

The exceptional effectiveness of this treatment is due to its use of formulated serums in combination with a vacuum-based skin abrasion tip.

The first step exfoliates superficial dead skin cells, followed by the vortex-peel, which offers the benefits of a peel without causing the skin to scale. The third step cleanses pores with a gentle vortex-suction, then the vortex-fusion treats the skin with a blend of antioxidants, hyaluronic acid, and peptides.

Lastly, nourishing products are applied for protection, along with LED light therapy.

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin. (50 mins)

FACIAL TREATMENTS

Hydra-Dermabrasion With Dermaplaning

\$41

Hydra-Dermabrasion is a non-laser skin resurfacing treatment. It consists of a combination of cleansing, exfoliation, extraction, hydration and moisturizing serums with no downtime and no pain.

Dermaplaning consists of taking a scalpel to gently scrape off the top layer of dead skin and peach fuzz hair. It leaves the skin smooth and is perfect for smooth makeup application and brighter complexion. This treatment is inclusive of LED light therapy.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin. (80 mins)

Hydra-Dermabrasion For Pregnant Women

\$48

Hydra-Dermabrasion exfoliates dead skin cells and extracts impurities with a vacuum-based skin abrasion tip while simultaneously bathing the healthy underlying skin with nourishing serums. These serums, suitable for use during pregnancy, cleanse deeply, exfoliate thoroughly, hydrate completely, and provide lasting antioxidant protection.

The exceptional effectiveness of this treatment is due to our skilful combination of products which are gentle enough to be used whilst pregnant, but effective enough to get the desired result.

The first step exfoliates superficial dead skin cells, followed by the vortex-peel that provides the rewards of a peel without subsequent scaling skin. The third step cleans out pores with a comfortable vortex-suction. Next, the Vortex-Fusion indulges the skin with a combination of antioxidants, hyaluronic acid, and peptides. Lastly, a protective application of nourishing products will be applied whilst under LED light.

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin. (60 mins)

Pre/ Post Peel Extraction

\$23

It is important to prep the skin before a chemical peel. To avoid unwanted skin irritation, side effects, and to maximize the benefits of your treatment, you must prepare your skin beforehand. It is important you extract at least 2 weeks before your appointment. This treatment is inclusive of LED light therapy. (30 mins)

FACIAL TREATMENTS

Deep Extraction Facial

\$55

This high impact treatment is specifically for oily skin, dilated pores and excess sebum. The Deep Extraction Face Lift:

- Purifies the epidermis;
- Brightens dull complexion;
- Decreases sebum production;
- Tightens pores; and
- Regulates oily skin and dilated pores.

We have combined a very light chemical peel with the nourishing effects of our innovative hydra-dermabrasion treatment.

This treatment has no social down time and will leave congested acne prone skin looking absolutely flawless. This treatment is inclusive of LED light therapy.

For impeccable results this treatment may be followed with a deeper chemical peel 2-4 weeks later.

Skin type indications: break out prone skin, rough texture, dull and sallow skin. (70 mins)

SkinSense Resurfacing Facial Treatment With Dermaplaning And Hydra-Dermabrasion

\$61

This treatment transforms dull and lackluster skin giving a clearer and brighter complexion while also decongesting blocked pores and manually exfoliating the epidermal layer of damaged skin cells.

Perfect for restoring a youthful plumpness and diminishing signs of premature ageing. This treatment is inclusive of LED light therapy.

Skin type indications: blocked pores, rough texture, dull and sallow skin. (70 mins)

SkinSense Hydrating Facial Treatment With Dermaplaning And Hydra-Dermabrasion

\$61

Evolved from SkinSense award winning anti-aging technology, this treatment transforms the skin and effectively treats the areas which need hydration the most.

A powerful combination of long lasting ingredients proven to soothe and calm the skin, delivering anti-inflammatory benefits and bringing immediate relief to dehydrated skin. This treatment is inclusive of LED light therapy. (70 mins)

FACIAL TREATMENTS

Murad Advance Enzyme Treatment

\$64

This luxurious treatment diminishes dark spots by utilizing the latest innovations in lightening and exfoliating technologies. The skin tone is immediately improved, providing a glowing, radiant complexion instantly.

Treatment is combined with Dermaplaning and Hydra-dermabrasion, and is inclusive of LED light therapy.

Skin type indications: rough texture, dull and sallow skin. (90 mins)

Murad Advance Vitamin C Infusion Treatment

\$61

Murad Vitamin C Infusion Treatment is an antioxidant – rich treatment that reverses the appearance of skin aging caused by environmental damage.

Treatment is combined with Dermaplaning and Hydra-dermabrasion, and is inclusive of LED light therapy.

Murad Vitamin C infusion Treatment helps to treat:

- Fine Lines and wrinkles
- Loss of skin firmness
- Pigmentation

Skin type indication: dull and aging Skin. (90 mins)

Murad Advance Retinol Duel Phase Power Peel

\$77

This treatment provides visible results without down time, by utilizing the pairing of tri-acids complex glycolic, lactic, and salicylic acids to enhance the penetration of skin renewing actives.

Skin type indications: oily, acne and acne-prone skin. (50 mins)

Full Face Laser Facial Combined With Dermaplaning And Hydra-Dermabrasion

\$112

Full Face Laser Hair Removal on the face is a non invasive medical procedure that uses a beam of light (a laser) to remove hair from the face. Laser hair removal can be done on other parts of the body too, but on the face it is used primarily around the mouth, chin, or cheeks.

If you are a laser hair removal patient and choose not to shave your hair or need an extraction, Hydra-Dermabrasion combined with Dermaplaning before your laser treatment can be a great alternative. This way not only your facial hair is removed but also the top layers of the skin is exfoliated thoroughly. The added benefits of this combination before laser hair removal is actually better penetration for the laser energy.

Skin type indications: unwanted facial hair, blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin. (90 mins)

FACIAL TREATMENTS

Deep Extraction Facial Combined With Dermaneedling

\$123

This combination therapy treats the skin from both the inside out and the outside in.

Hydra-Dermabrasion works from the outside in by providing a deep cleanse, extractions, a light peel, and a moisture infusion. This can be customized to treat conditions such as acne, sun damage, and premature aging.

Derma-Needling works from the inside out by invoking the wound healing cycle deep within the skin, encouraging the growth of fresh, healthy collagen. This improves acne scarring, lessens the appearance of enlarged pores, and softens fine lines. This treatment is inclusive of LED light therapy.

It is truly a match made in skincare heaven, delivering incredible results while being easy to schedule with minimal downtime and budget consciousness!

For impeccable results, this treatment may be followed by a deeper chemical peel 4 weeks later if necessary.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin. (120 mins)

Dermaplaning Combined With Dermaneedling

\$123

Dermaplaning and Derma-Needling are effective standalone treatments, but when combined, they can produce optimal results.

Dermaplaning before Derma-Needling allows topical products to penetrate significantly deeper into the skin layers, helping the patient achieve the most desirable outcome. This treatment is inclusive of LED light therapy.

Together, these procedures are ideal for treating uneven skin tone and texture, large pores, fine lines, unwanted facial hair, and acne scars.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin. (120 mins)

O₂ Lift Oxygen Dome Facials

\$101

Oxygen offers numerous benefits for healthy-looking, radiant complexion. It helps revitalize collagen-depleted skin, adds brightness to lackluster complexion, cleans out clogged pores, and clarifies troubled skin. Overall, a proper oxygen facial delivers a gorgeous glow and a fresh, uplifted look. This treatment is inclusive of LED light therapy.

Skin type indications: wrinkles and fine lines, rough texture, dull and sallow skin (90 mins)

CHEMICAL SKIN PEELS

A Medical Grade Chemical Peel involves applying a chemical solution to the skin to remove its outer layers. This causes resurfacing of the skin resulting in softer, smoother and more youthful looking skin.

Medical Grade Chemical Peels can target the following skin conditions:

- Acne
- Acne scarring
- Fine lines and wrinkles
- Hyperpigmentation
- Large pores
- Uneven skin tone
- Sun damaged and aging skin
- Redness and rosacea

CHEMICAL SKIN PEELS

Image Skincare Ormedic Peel

\$51

This luxurious treatment diminishes dark spots by utilizing the latest innovations in lightening and exfoliating technologies.

Skin tone is immediately improved, providing a glowing, radiant complexion instantly.

Skin type indications: rough texture, dull and sallow skin. (50 mins)

Image Skincare Signature Peel

\$58

Strength of peel – 2/5

Vitamin C and fruit enzymes blended in an organic aloe-vera base to visibly reduce redness and brighten the skin while hyaluronic acid provides superior hydration. This treatment is inclusive of LED light therapy.

Skin type indications: redness-prone, dry/dehydrated, smoker's skin, tired/dull, post-microdermabrasion, oily/acne (70 mins)

Image Skincare Signature Peel Combined With Dermaplaning

\$55

Vitamin C and fruit enzymes blended in an organic aloe-vera base to visibly reduce redness and brighten the skin while hyaluronic acid provides superior hydration.

Treatment is combined with dermaplaning for a deeper exfoliation of the epidermal layers of the skin, and is inclusive of LED light therapy.

Skin type indications: redness-prone, dry/dehydrated, smoker's skin, tired/dull, post-microdermabrasion, oily/acne. (90 mins)

Dermaceutic Milk Peel

\$48

Strength of peel – 2.5/5

This is a superficial peel suitable for dull complexions, wrinkles and skin in need of stimulation.

A series of Milk Peels will restore radiant complexion, stimulate the epidermis, regulate oily skin and dilated pores, as well as improve fine lines and wrinkles and even out skin tone. This treatment is inclusive of LED light therapy.

Skin type indications: wrinkles, dry/dehydrated, smoker's skin, tired/dull, post-microdermabrasion, oily/acne. (50 mins)

CHEMICAL SKIN PEELS

The Cosmelan Depigmenting Peel –Per Treatment

\$269

Strength of peel – 5/5

This unique, multi-ingredient chemical treatment is designed to reduce areas of skin discoloration and hyperpigmentation. The Cosmelan Peel decreases the skin's natural melanin production by inhibiting certain enzymes, providing an even complexion.

A Cosmelan Peel can be used to improve the look of the skin on the face, the abdomen, legs/hands, as well as the chest area.

POST TREATMENT PRODUCTS MUST BE BOUGHT SEPARATELY.

MAY BE OPTIMISED WITH ADDITIONAL PEEL AT AN ADDITIONAL COST.

Skin type indications: dull skin, dry areas, deep hyperpigmentation, blemishes, acne scars, discoloration due to Melasma

Skye Perfection Plus Chemical Peel

\$220

Strength of peel – 4/5

This peel is an extremely effective treatment for acne and uneven skin tone caused by excessive melanin production; it contains the powerful ingredients which help to exfoliate the skin, promote cell turnover and inhibit melanin synthesis, leading to a more even and radiant complexion.

Skin type indications: advanced aging, pigmentation, acne, dull skin

CHEMICAL SKIN PEELS

Full Face Laser With Light Chemical Peel And Dermaplaning **\$112**

Full Face Laser hair removal on the face is a non invasive medical procedure that uses a beam of light (a laser) to remove hair from the face.

Laser hair removal can be done on other parts of the body too, like the armpits, legs, or bikini area, but on the face it is used primarily around the mouth, chin, or cheeks.

A light (superficial) chemical peel removes the outer layer of the skin (epidermis). It is used to treat fine lines and wrinkles, acne, uneven skin tone, and dryness.

If you are a laser hair removal treatment patient and need a benefit of both Light chemical peel and laser hair removal, this treatment is best for you

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin. (90 mins)

Hydrating And Resurfacing Medium Depth Peel Treatment **\$87**

Strength of peel – 2.5/5

This is a unique, multi-ingredient chemical peel facial treatment for congested, hyper-pigmented and aging skin.

Congested skin is first decongested using the innovative Hydra-Dermabrasion technique which consists of a combination of cleansing, exfoliation, extraction, hydration, and moisturizing serums.

A light chemical peel is then applied to the treatment area. This peel includes azelaic acid, resorcinol, and phytic acid, which lighten and reduce the appearance of pigmentation while also working to tighten pores and dry out active lesions on the face. Peel is left on the clients face for some hours and client is advised of a suitable after care protocol.

Skin type indications: break out prone skin, congestion, rough texture, dull and sallow skin. (60 mins)

BODY TREATMENT

Purifying Acne Body Treatment Front Or Back

\$109

Breakouts are not limited to the skin on your face. This clinical treatment combines fruit enzymes, beta-hydroxy-acids, and powerful anti-inflammatory botanicals to eliminate stubborn and often embarrassing body acne.

This clinical treatment combines chemical and mechanical exfoliation with antibacterial salicylic acid and anti-inflammatory botanicals to heal breakouts on the chest and back.

Skin type indications: acne breakout on any part of the body. (90 mins)

TCA Spot Treatment Chemical Peel

Small – \$145
Medium - \$193
Large – \$244

The Trichloroacetic acid (TCA) peel is a type of chemical peel which is applied to the skin to smooth the surface and remove the top layer of dead skin.

A TCA Chemical Peel helps:

- minimize blemishes
- reduce the appearance of wrinkles
- even skin color
- help with removal of precancerous growths
- soften acne scars
- help prevent and control acne

Skin type indications: hyperpigmentation, blemishes, acne scars, discoloration due to melasma. (90 mins)

BODY TREATMENT

Full Body Scrub

\$51

Maintain baby soft skin all year long, no babies required!

This luxurious treatment begins with a full body steaming treatment, effectively purging the skin of all toxins and imperfections. This is then followed with a full body scrub, utilizing the benefits of microdermabrasion combined with natural skin polishers to prepare a flawless canvas. This process is repeated severally, with extra sugars and spices thrown in between to leave you with an even, naturally bronzed glow.

Skin type indications: rough texture, dull and sallow skin. (70 mins)

Body Scrub For Acne Prone Skin

\$56

This treatment is a physical exfoliation treatment that uses ingredients like sugar and sea salts to remove dead skin cells and acne. This treatment helps:

- treat and prevents future acne
- boost the appearance of your skin
- removes top layer of dead skin cells
- Improves the efficacy of tropical treatments

Skin type indications: acne prone skin, rough texture, dull and sallow skin. (90 mins)

Depigmenting Spot Bleaching

At Skye Medical Aesthetics Center, we believe that everyone deserves to feel confident and comfortable in their own skin.

Transform your mental health and general wellbeing with our bespoke depigmenting Spot Bleaching Treatments. This treatment is just the beginning of the personalized and effective intimate care services that we offer.

This treatment can be used for the following areas: -

Brazilian	Inner Thighs	Under Arms

Full Body Scrub Combined With Depigmenting Spot Bleaching And Laser Hair Removal (*Half legs, Under Arms And Brazillian*)

1 Area Depigmenting	\$224
3 Areas Depigmenting	\$268
5 Areas Depigmenting	\$329

Dermaeedling For Scar Revision

This treatment uses tiny needles to puncture the skin and effectively treats:-

- Acne scars
- Dark spots
- Large pores
- Melasma
- Sagging skin
- Scars due to surgery or an injury
- Stretch marks
- Uneven skin texture and tone

The treatment is minimally invasive and safe for all skin types. It works by stimulating your body to make collagen, hence why it is also called "collagen induction therapy".

When properly performed, your body responds by healing itself in the process creating just the right amount of collagen. This can lead to less noticeable scars and wrinkles, more even skin tone and a better texture.

Scars and Stretch-Mark Revision

Small	– \$175
Medium	– \$324
Large	– \$393

MASSAGE TREATMENT

Wood Therapy Massage (Per area)

\$25

This body toning massage treatment fights skin laxity on a cellular level, combating cellulite, stimulating collagen and reducing the volume of lipid cells for a smooth contoured body.

This treatment is ideal for people who might have had liposuction, fat transfer and people who suffer from cellulite.

Emsculpt

\$224

Despite our best efforts, we cannot always contour our bodies the way we would like with diet and exercise alone, this is especially true when it comes to the stomach area, which is prone to fat build-up and sagging with age. The Emsculpt treatment can help you contour your body the way you want with no downtime or discomfort.

The results show that abdominal fat was reduced by an average of nearly 19%, abdominal muscle tissue increased by 15%, and abdominal muscle separation (which can cause your belly to protrude) was reduced by as much as 10%. We usually recommend a course of treatments.

Body Sculpting Cavitation and Radio Frequency Therapy

\$45

(Per Area)

This treatment is a non-invasive, non-surgical way of losing inches and getting rid of body fat. It reduces your body circumference and can help you gain the body shape you have always wanted. The main areas treated are the abdomen, thighs and buttocks. This treatment is quick, safe and effective.

We have combined this treatment with our signature chinese wood therapy massage to give the best body sculpting results possible.

We usually recommend a course of treatments for optimum results, six sessions once a week are usually required.

This treatment is ideal for people who might have had liposuction and fat transfer, people who suffer from cellulite and also people who simply wish to lose a few extra inches in certain areas.

Botulinum Toxin & Polycaprolactone(PCL) Thread Treatments

Botulinum Toxin

Botulinum Toxin injections are a group of medications that use various forms of muscle relaxing toxins to temporarily paralyze muscle activity.

Botulinum Toxin injections are noted primarily for the ability to reduce the appearance of some facial wrinkles. They are also used to treat such problems as repetitive neck spasms (cervical dystonia), excessive sweating (hyperhidrosis) and lazy eye.

Relaxing Shoulders

\$546

Hyperhidrosis

\$546

Relaxing Leg Muscles

\$546

Relaxing Massetta Muscles

\$311

Botox on face

\$7 per unit

Number of units may vary depending on clients objectives.

Polycaprolactone (PCL) Threads Treatments

These are the most latest monofilament suspension threads of synthetic origin (caprolactone). They regenerate collagen for a longer period than PDO threads.

They stimulate then skin self regeneration mechanism, improve it's firmness and elasticity. PCL threads last twice as long as PDO threads.

Full Face Lift

\$1466

Lower Face Lift

\$933

Fox Eye

\$493

Barbie Nose

\$666

(With 1ml Filler)

\$780

Under Chin Lift

\$506

PCL Mono Threads For Under Eye

\$200

PCL Mono Threads For Smile

\$173

PCL Mono Threads Cross Hatch Full Face

\$400

WEIGHTLOSS TREATMENT

Medically Assisted Weight Loss Program

TBC

Our Medically Assisted Weight Loss Program is an FDA approved program primarily prescribed for adults with type 2 diabetes, that has now been approved for weight loss.

When used alongside a good diet and frequent exercise, this treatment will improve blood sugar levels, reduce the risk of major cardiovascular events and most importantly reduce appetite, thus leading to significant weight loss.

Studies have shown 15%-18% weight loss in adults who have a BMI of over 30. Treatment duration depends on individual weight loss goals, however we would suggest 4-6 month programs per session.

Aqualyx Lypolysis – Fat Reduction

\$135

For First Vile,

\$93

Per Additional Vile

Lipolysis is a cosmetic procedure in which drug mixtures are injected into unwanted pockets of fat with the goal of destroying the fat cells.

The mixture is injected directly into the subcutaneous fat through multiple micro-injections administered over multiple treatment sessions.

The desired end result is the removal of localized fat deposits.

Treatment is combined with either a facial or wood therapy massage.

(Pay For 5 To Get 1 Free)

PRP TREATMENTS

Platelet Rich Plasma Treatments (PRP) use the healing properties of your own blood to rejuvenate your skins appearance, aid hair growth and reduce the appearance of stretch marks and scars.

(Pay For 5 To Get 1 Free)

Derma-Needling With PRP Mesotherapy aka Vampire Facial

\$292

As we age our bodys natural production of collagen and elastin naturally slows, in addition, external factors – including UV rays and pollution further damage our collagen and elastin.

This Dermaneedling treatment combined with Mesotherapy, effectively opens up channels in the skin that help the Platelet Rich Plasma to be absorbed into the layer of the skin where it will be most effective.

Skin type indications: Acne scarring, oily, aging

PRP Bust Rejuvenation

\$292

The PRP Bust Rejuvenation treatment aka the vampire breast lift (VBL) augments your breasts without surgery. The medical professional injects platelet-rich plasma (PRP) to improve skin texture and make your breasts appear fuller. Side effects are minimal, but may include bruising, swelling and tenderness, and there is no downtime.

O – Shots

\$393

The Orgasm Shot (or O Shot) is part of a series of treatments which form our Aesthetic Gynecology practice, it is a non-surgical in-office medical, sexual and cosmetic rejuvenation treatment for the vagina using the preparation and injection of blood-derived growth factors.

The PRP solution is injected into the clitoris and vagina to stimulate potent stem cells to generate healthier and more functional tissue, thus improving the areas sexual response and as well as addressing urinary incontinence within the vagina (G-Spot, O-Spot, Skene’s Glands, urethra, and vaginal wall).

There is no risk of adverse reaction, because PRP is obtained from your own blood, number of sessions is dependent of the specific issues being addressed.

PRP Mesotherapy

#213

PRP Mesotherapy is a highly effective, natural treatment that harnesses your body's own healing power to naturally stimulate cellular growth and repair.

PRP TREATMENTS

PRP Under Eye Treatment

\$253

This treatment is a natural non surgical solution for treating under eye circles and bags.

The doctor, extracts the patients own blood and separates the plasma which contains the valuable collagen and growth factors from the rest of the blood components. This personalised regenerative serum is then injected into the problem areas under the eyes, so that the tissues get the boost they need to repair and rejuvenate the treatment area.

As a result you can:

- Regain the lost elasticity and plumpness under the eyes by repairing the weakening collagen and elastin in the skin;
- Create entirely new blood vessels that bring fresh oxygen and nutrients to combat irregular pigmentation and enhances melanin production; and
- Clear away puffiness due to excess fluid retention and toxins.

The injections cause a mild discomfort but with localized numbing you will hardly feel anything. Once the injections have been done, you can literally carry on with your life without any downtime.

You should start seeing results a month after the injections.

PRP Full Face Rejuvenation

\$517

This treatment is a combination of several PRP treatments administered for ultimate rejuvenation.

These include PRP Under Eye Treatment, Vampire Facial with PRP Mesotherapy and PRP Hairline rejuvenation

We will start by first administering the PRP Under Eye Rejuvenation for a more rested and youthful appearance around the eye area.

We will then proceed with the PRP Mesotherapy Treatment; with this treatment PRP is injected into the dermal layer of the skin on the face as well as the hairline, this will encourage the growth of healthy hair.

We then finish the treatment with the PRP Derma-needling, AKA the world famous Vampire Facial.

This treatment has no downtime and final results will be visible 4-6 weeks post treatment.

LASER HAIR REMOVAL

Our Laser Hair Removal treatment is performed using a device that gradually heats the dermis to a temperature that effectively kills the hair follicles and prevents hair growth.

This treatment is the best option for removing unwanted hair from the face and body giving a permanent reduction in hair growth, as opposed to temporary alternative options such as waxing, shaving or threading.

The laser destroys the hair follicle at the root with absolutely no downtime. It is a relatively quick, painless and easy method, requiring a session only once every 3-6 weeks depending on the area being targeted. It is also a great solution to ingrown hairs because the laser targets the hair follicle at the root destroying its ability to produce hair.

Laser Hair Removal with the Soprano Ice Platinum is painless. Certain areas could be more sensitive but overall quick and pain-free.

Full Face Laser With Light Chemical Peel And Dermaplaning

\$112

Full Face Laser hair removal on the face is a non invasive medical procedure that uses a beam of light (a laser) to remove hair from the face. A light (superficial) chemical peel removes the outer layer of the skin (epidermis). It is used to treat fine lines and wrinkles, acne, uneven skin tone, and dryness.

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin. (90 mins)

Full Face Laser With Hydradermabrasion And Dermaplaning

\$112

If you are a laser hair removal patient and choose not to shave your hair or need an extraction, Hydra-Dermabrasion combined with Dermaplaning before your laser treatment can be a great alternative. This way not only your facial hair is removed but also the top layers of the skin is exfoliated thoroughly. The added benefits of this combination before laser hair removal is actually better penetration for the laser energy.

Skin type indications: blocked pores, fine lines and wrinkles, rough texture, dull and sallow skin. (90 mins)

ELECTROLYSIS HAIR REMOVAL

Electrolysis for Permanent Hair Removal is a highly effective and widely recognized method for achieving permanent hair removal.

Using a fine, sterilized probe that is inserted into the hair follicle, a controlled electrical current moves down the wire to the bottom of the follicle, destroying the hair root. The follicle damage prevents hair from growing and causes the existing hair to fall out.

This procedure can be done on unwanted hairs on any part of the body except hair in the nose or ears.

We typically commence the use of depigmenting agents and sun protection on the areas to be treated 4 weeks before the procedure to further minimize the risk of skin discoloration.

This treatment is FDA-approved and suitable for a variety of hair and skin types, making it a versatile choice for individuals seeking a long-term solution for unwanted hair.

Skinny Drip

\$85

Boost your metabolism & burn fat with our Weight Loss IV. Blast away those stubborn pounds, burn fat, lose weight faster and enjoy a healthier lifestyle.

Whether you are just starting your weight loss journey or need an extra push for those last 5 pounds, our Skinny Drip can help you.

The goal of the Skinny Drip is to assist in weight loss, by reducing body fat. The vitamin weight loss drip includes b vitamins, carnitine, and three fat burners.

Immune Booster

\$84

Our Immunity Booster IV drip provides the vitamins and minerals that your body requires for the maintenance of the immune system. Our immune Booster:

- May assist your immune system to be in the best condition;
- Reduces tiredness and fatigue; and

- Decrease oxidative stress to achieve peak condition.

Oxidative stress caused by a build-up of free radicals can seriously overwhelm our immune system, which is why we have included powerful antioxidants, such as zinc, vitamin c, and other multi-vitamins in our IV Immune Booster.

Our IV Immune Booster is full of vitamins and amino acids, which may help your body recover full health.

The Myers Cocktail

\$100

Named for the late John Myers, M.D., the Myers Cocktail is an infusion of multiple vitamins and minerals, including b vitamins, vitamin C, calcium, and magnesium.

Whether you are generally healthy but in need of a boost, either to your immune system or energy levels, or you are searching for a complementary therapy, then the Myers Cocktail could be the solution. Patients generally report an all-over rejuvenation of mind, body, and spirit.

Vitamins in Myers Cocktail infusion work as natural antihistamines and are key to a healthy immune system. Patients have also found great value in the Myers Cocktail for enhancing athletic performance.

IV INFUSIONS

Magic Glow

\$119

This Intravenous therapy is a treatment where a combination of vitamins, minerals and antioxidants are directly infused into your system through an IV.

What makes the Magic Glow IV infusion treatment stand out from the rest is the addition of depigmenting agents.

So we have high levels of glutathione, combined with vitamin C, antioxidants and further depigmenting agents.

Initial course of treatment should be done once a week for 6 weeks,

(Pay For 5 Sessions Get 1 Free)

Super Bright

\$119

This highly effective treatment is considered to be one of the safest and most effective skin pigmentation treatments available for melasma and hyperpigmentation.

This treatment is a cocktail of ingredients including tranexamic acid, vitamin c, glutathione, and antioxidants which work together to lighten and rejuvenate the skin. Treatment should be done 2 weeks apart. Number of treatments is dependent on clients individual goals.

(Pay For 5 Sessions Get 1 Free)

DERMAL FILLERS

Dermal fillers help to diminish facial lines and restore volume and fullness in the face. As we age, our faces naturally lose subcutaneous fat. The facial muscles are then working closer to the skin's surface, so smile lines and crow's feet become more apparent.

The facial skin also stretches a bit, adding to this loss of facial volume.

Other factors that affect the facial skin include sun exposure, genetics, and lifestyle.

Simply put, dermal filler injections involve a material being injected underneath the skin in the nasolabial folds, under eye area, marionette lines, chin, cheeks, and oral commissures, which plump up these areas and smooth out the wrinkles. Lip augmentation is also done with dermal fillers.

The main areas where dermal fillers are used in the lips, cheeks, chin, temple, nasolabial folds, the oral commissures, and marionette lines.

\$209 – \$377 Per Syringe

Price Is Dependent On Brand And Type Of Filler Used

Tear Trough (Under Eye) Filler Treatment

\$243 per syringe

Tear trough filler treatment, also referred to as under-eye dermal fillers, is a popular cosmetic solution for tackling sunken and tired looking eyes. It is a non-surgical treatment aimed at treating deep wrinkles and sunken eyes; It involves carefully injecting a Hyaluronic Acid based gel-like substance into specific areas around the eyes, which works to replace the lost volume brought about through the aging process. The outcome is smoother, younger-looking, more radiant skin, and a reduction in sunken hollow under eye skin.

Hyaluronidase

\$57 per vial

Hyaluronidase permanently dissolves Hyaluronic Acid fillers by breaking the bonds between the filler (Hyaluronic Acid chains), leading to permanent removal. Hyaluronidase can be used as an eraser to correct misplaced filler and has immediate results.

Hyaluronic Acid Rejuvenating Injection

\$170 per session

Our Hyaluronic Acid Rejuvenating Injection, commonly known as the 5-POINT FILLER FACE LIFT INJECTION, is a non-invasive facial rejuvenation treatment that uses dermal fillers strategically placed at five specific points on the face to create a lifted and more youthful appearance. This technique addresses volume loss, deep lines and wrinkles, and sagging skin without the need for surgery. It is also suitable for neck, décolletage, and hand rejuvenation.

HAIR TREATMENTS

Steroid Injections

**\$57 For The First Vial
31 For Subsequent Vials**

Steroid injections are used as a treatment for improving some forms of hair loss. Steroid injections work for hair loss that occurs when the body's own immune system starts fighting hair follicles. The immune system should normally be fighting infections. However in some hair loss disorders, the immune system fights the hair follicle which causes hair loss to occur. Steroids can counteract stop the immune system from harming the hair follicles.

In clinical studies on the effectiveness of steroid injections for hair loss, an average increase in hair density of 22% and an average increase in hair thickness of 26% were observed in patients who underwent 1 session every 2 weeks for a period of 8 weeks (4 sessions).

Mesotherapy Hair Booster

**\$135
Per Vial**

Mesotherapy addresses hair loss by directly injecting the necessary amount of medicines into the scalp. It helps boost circulation to the scalp and provides stimulation for new hair growth.

The procedure requires about eight sessions of half an hour each, where you may notice visible results after the fifth session.

PRP Hair Rejuvenation

PRP hair Line Rejuvenation for hair-loss is an effective non-surgical solution to treat pattern baldness and receding hairlines. This treatment is available for both men and women.

Dealing with hair loss can be one of the hardest conditions that both men and women can experience as it can deeply affect self-esteem and confidence.

Finally we will administer the PRP Dermaneedling and mesotherapy into the treatment area.

When the platelets in the plasma are concentrated, magic happens. The results are extra ordinary.

ENDOLIFT LASER SKIN TIGHTENING

Endolift is a non-surgical skin tightening treatment which utilizes cutting edge laser technology to remodel both deep and superficial layers of the skin.

The benefits of the Endolift treatment include; remodeling of both deep and superficial layers of the skin, both immediate and medium to long-term tissue toning of the treated area due to the synthesis of the new collagen. The Endolift treatment targets mild to moderate skin laxity connected to stubborn pocket fats and it is suitable for lifting and contouring multiple areas, both in the face and the body. The results are immediate and will continue to improve for several months and are long-lasting. This treatment can be paired with a PCL full face lift for suitable patients who desire an ultra sculpted look.

This treatment is not advised for patients who are pregnant.

Body (large area)	\$2,665

FRACTIONAL CO₂ LASER TREATMENTS

Ablative lasers, such as the CO₂ Laser, work by traumatizing the skin, it removes the thin outer layer of the skin (epidermis) and heats the underlying skin (dermis). This stimulates the growth of new collagen fibers. As the epidermis heals and regrows, the treated skin appears clearer, smoother and tighter.

CO₂ Laser is a method of reducing wrinkles, scars and blemishes by using a laser with precise delivery of tiny concentrated beams of energy to treat discreet areas, with no damage to the surrounding skin.

How many CO₂ treatments will I need? Most patients only need one CO₂ treatment to see results; However, some patients with deeper wrinkles or scarring may need multiple treatments for heightened results.

RADIO FREQUENCY MICRONEEDLING

RF (short for radiofrequency) Microneedling treatments combine the collagen-boosting, skin resurfacing techniques of micro needling with skin-tightening fractionated radio frequency energy to dramatically lift, tone, and tighten your skin.

Radiofrequency micro needling uses tiny needles and radiofrequency waves to rejuvenate the skin. The treatment is a form of controlled skin injury. The damage stimulates the growth of healthy new skin, which can benefit common skin issues like acne scars and wrinkles.

This innovative treatment targets the deep layers of the skin to reduce wrinkles, build collagen, and eliminate unwanted fat, at the same time, beneficial heat from the RF energy tightens your skin. Because the RF energy goes so deep, you will experience faster, more remarkable results with little downtime.

POLY-L-LACTIC ACID

Poly L-Lactic Acid (PLLA) is an injectable collagen stimulator designed to restore lost volume and improve contours. This stimulation of collagen makes the treatment highly versatile and helps create a natural-looking and youthful appearance. It is an FDA-approved treatment that doubles as both a filler and collagen stimulator, making it an effective and versatile option. Since it is non-invasive and suitable for a wide range of people, PLLA has become a popular procedure for people seeking to improve their skin and the contours of the face and body with minimal downtime.

A high level of safety is involved in the procedure, which starts with the components of the PLLA; you can be rest assured that nothing harmful will be injected into the body. PLLA has been used in the cosmetic field for years and is also utilised in a medical context for surgical procedures.

What parts of the body does PLLA treat?

Face – Revitalize the skin and reduce wrinkles in the chin, jawline, cheeks, temples.

Hands – Reduce wrinkles and veiny appearance on hands.

Buttocks – Increase plumpness and reduce the look of a sagging bottom.

Thighs – Achieve smoother and fuller skin with a reduction in the appearance of cellulite.

Hips – Smooth cellulite and reduce the appearance of hip dips.

Per 150mg Per Vile

\$642

Platelet Rich Fibrin (PRF) Gel Bio Filler

PRF Gel Bio Filler is a 100% natural injectable that uses your body's own platelet-rich fibrin (PRF) to create a natural gel that is safer than other dermal fillers. It uses your body's own components and eliminates the need to inject anything foreign into the face. The bio-filler has a flexible consistency allowing it to easily adapt to add volume to various treatment areas while also slowly releasing growth factors over a prolonged period of time.

When extracted from the blood, turned into a gel, and injected into the skin, it instantly smoothens fine lines and wrinkles, restores lost volumes, and regenerates natural production of collagen and elastin at a cellular level without any unnatural ingredients.

Everything about PRF Gel Bio Fillers comes from YOU!.

What parts of the body does PLLA treat?

- **Cheeks**
- **Nasolabial fold**
- **Periorbital dark circles**
- **Hands**
- **Jaw**
- **Tear trough**

Per 400ml

\$780

OTHER TREATMENTS

Mesotherapy

\$135

(priced per ampoule to be used, area to be treated will determine number of ampoules to be used)

This treatment is a non-surgical cosmetic treatment. Mesotherapy employs multiple injections of pharmaceutical and homeopathic medications, plant extracts, vitamins, and other ingredients into subcutaneous fat. The idea behind Mesotherapy is that it corrects underlying issues like hyperpigmentation, cellulite, and generally dull sagging skin from within; by delivering the needed products to where they will be most effective, clients will achieve results unattainable from merely applying the same products on the top epidermis of the skin.

(Pay For 5 To Get 1 Free)

Electrodessication Skin Tag Removal

\$207 – \$393

Electrodessication is a fast and simple medically directed procedure that uses electric current to remove skin tags, some brown spots, and other skin concerns. This treatment is administered using a needle-shaped electrode to heat the skin in pinpoint precise areas and usually involves little to no downtime.

Sclerotherapy

**\$124 For The First Vial
\$72 For Subsequent Vials**

(priced per ampoule to be used, area to be treated will determine number of ampoules to be used)

This treatment effectively treats varicose and spider veins. It is often considered the treatment of choice for small varicose veins.

Sclerotherapy involves injecting a solution directly into the vein that causes the vein to scar, forcing blood to reroute through healthier veins.

(Pay For 5 To Get 1 Free)

OTHER TREATMENTS

Keloid Treatment

**\$57 For The First Vial
\$31
For Subsequent Vials**

Keloids are pathological scars that present as nodular lesions extending beyond the area of injury. They do not spontaneously regress, and often continue to grow over time. The abnormal wound-healing process underlying keloid formation results from a lack of control mechanisms regulating cell proliferation and tissue repair.

Keloids may cause cosmetic disfigurement, functional impairment, and negatively impact quality of life.

Triamcinolone Acetonide (TAC) is the most commonly used intralesional corticosteroid.

TAC has been proven effective, showing statistically significant overall improvements in scars over time with long-term stable results.

\$55 for the first vial, \$30 for subsequent vials

Colon Hydrotherapy Treatment

\$67

The colon, or large intestine, absorbs water and salt from waste material that has passed through the body.

Bacteria in the colon break down the remaining material, which is then expelled from the body through the rectum and anus.

Colon Hydrotherapy helps with:

- Treatment of irritable bowel syndrome
- Weight loss
- Detoxification
- Cleansing before surgery

SKINCARE TIPS

- Please do not use retinol 24-48 hours before your appointment with us.
- Stick to your suggested skincare regimen as consistently as possible.
- If you have breakout-prone skin, ensure you get an extraction facial every 4-6 weeks.
- Avoid touching your face.
- Make sure to drink plenty of water.
- Limit manual exfoliation to 2-3 times per week.
- Always clean your makeup brushes.
- Do not layer salicylic acid toner with retinol or hydroquinone.
- Wear sunscreen every day and ideally reapply every 2-3 hours.
- Optimized results can be seen within 4-6 months, so please be patient.
